Core Competency Addressed in this Class:

Public Service Focus
Explain the policy analysis process and demonstrate analytical techniques.

Class Duration: One Day

Objective:
This class helps participants identify issues of public policy and provides them with the tools to effectively create, analyze, evaluate, and quantify public policy.

Desired Learning Outcomes:
By the end of this class the participant should be able to:
1. Explain the role of public policy.
2. Define policy analysis.
3. Describe the major elements in policy analysis.
4. Identify evaluative criteria and useful quantitative tools.
5. Perform policy analysis for work.
6. Make more informed decisions as a voter and as a community volunteer.

Instructor:
Eng Braun is former administrator of the Division of Research and Analysis in the Wisconsin Department of Revenue.
