Core Competencies:

Personal and Organizational Integrity

Promote high standards of honesty, integrity and ethical practices in your organization.

Apply organization policies in a consistent manner, and ensure legal and policy compliance.

Class Duration: One Day

Objective:

The purpose of this class is to explain the traditions of ethical and moral values that have been incorporated in the decision-making processes of modern state and local government managers. Managers will be made aware of the body of laws and obligations governing their actions on the job and how to avoid taking “unethical” actions.

Desired Learning Outcomes:

By the end of this class the participant should be able to:

1. Discuss the key ethical issues in public sector management.
2. Articulate guidelines for ethical decision-making.
3. Apply an ethical decision-making model to public sector dilemmas and scenarios.
